

We know some persons may find it difficult to find their way around the JSON file for the FavResume, and that's exactly why we have prepared this help document to show the way around it.

1. Upon viewing the JSON File on the FavResume page, this is what you find.

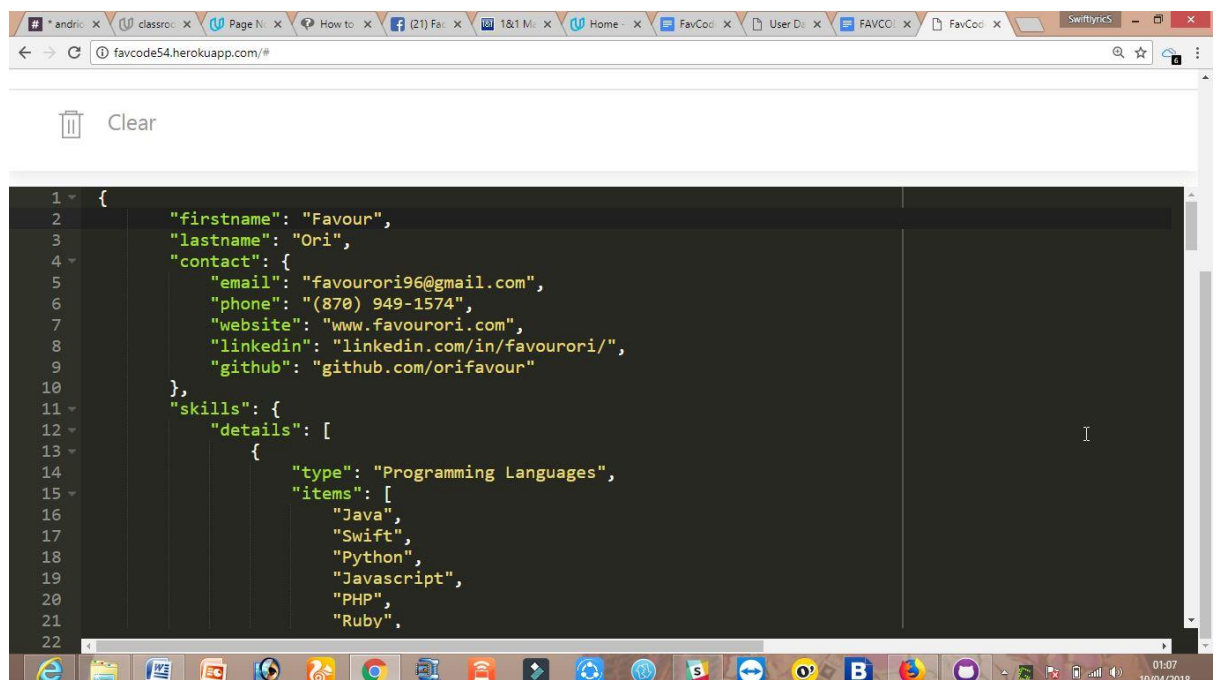

The screenshot shows a web browser window with the URL `favcode54.herokuapp.com/#`. The page displays the FavResume logo and a sidebar with 'QUICK LINKS' including 'Generate PDF', 'Reset to Default', and 'Clear'. The main content area shows a JSON file with the following structure:

```
1 {
2   "firstname": "Favour",
3   "lastname": "Ori",
4   "contact": {
5     "email": "favourori96@gmail.com",
6     "phone": "(878) 949-1574",
7     "website": "www.favourori.com",
8     "linkedin": "linkedin.com/in/favourori/",
9     "github": "github.com/orifavour"
10  },
11  "skills": {
12    "details": [
13      {
14        "type": "Programming Languages",
15        "items": [
16          "Java",
17          "Swift",
18          "Python",
19          "Javascript",
20          "PHP",
21          "Ruby",
22          "Rails"
23        ]
24      },
25      {
26        "type": "Web Frameworks",
27        "items": [
28          "Bootstrap",
29          "Materialize",
30          "Rails"
31        ]
32      },
33      {
34        "type": "Databases",
35        "items": [
36          "MySQL",
37          "SQLite"
38        ]
39      }
40    ]
41  }
42 }
```

2. Make changes to the texts coloured yellow in the black background section of the page called the "Editor".
3. **WAIT! Don't rush into the changes yet. Understand this clearly.** The changes you are to make on the Editor should change from whatever is stated therein to what is obtainable with you. **For example:** change **firstname** "Favor" to "Henry"; and change **lastname** "Ori" to "Okoli".

Notice the change in the "firstname" and "lastname" sections in the two photos of the Editor below:

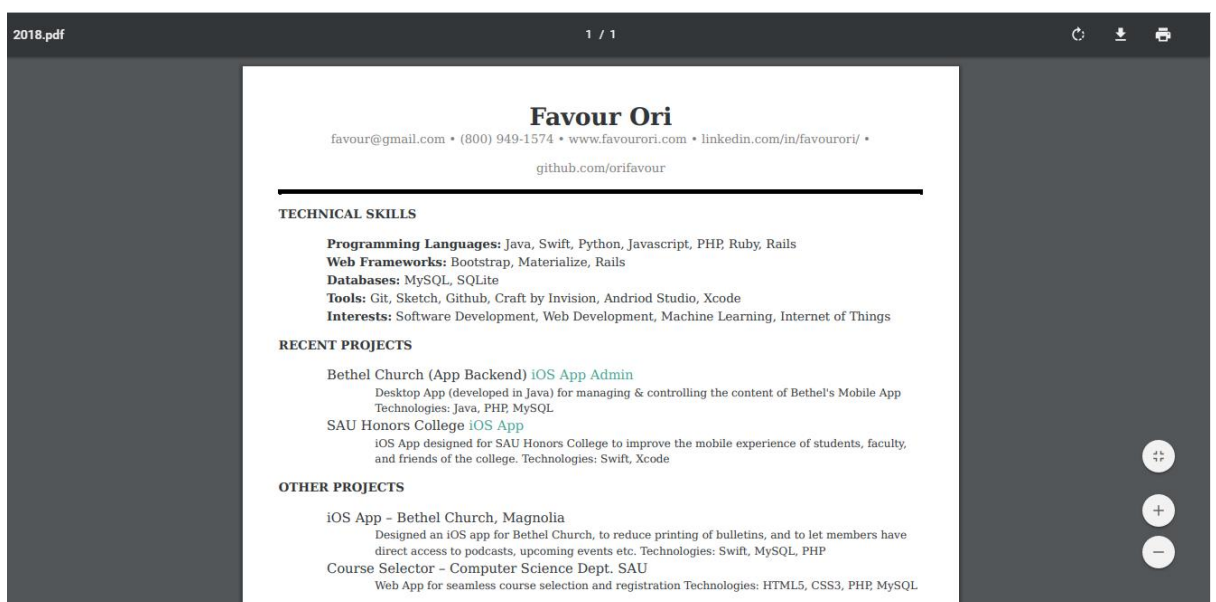

The screenshot shows the FavResume Editor interface. At the top, there is a 'Clear' button. Below it, the JSON file is displayed in a dark-themed editor. The 'firstname' and 'lastname' fields are highlighted in yellow, indicating they are the focus of the changes. The JSON structure is the same as in the previous screenshot, but with the 'firstname' and 'lastname' fields highlighted for editing.

**NB: This is very IMPORTANT!!! Do not undo or delete any of the punctuation marks in the Editor as you go about making your changes. Do not! Do not!! Do not!!!**

- Continue in that manner to make the changes on the rest sections of the Editor from  
“email”  
“phone”  
“website”  
“linkedin”  
Etc...filling each with your own equivalent of the information.

- Once done with all changes on the JSON file, click “Generate PDF” to download a copy of your resume— something that looks just like the photo below.

**GOODLUCK!**
